

SENIOR YEARBOOK PICTURE REQUIREMENTS

Here are the requirements for the senior pictures that will be put in the yearbook. Please pass this along to any photographers that may need it. Please follow these so your picture will avoid being rejected.

Senior pictures must be composed like a standard ID photo and must meet the following requirements:

- “Head-and-shoulders” only, looking at the camera from the front
- Simple, indoor backdrop only – no animal prints or busy backgrounds
- Color only - no black-and-white, sepia, etc.
- No print (like your name or year) on the picture
- No outdoor shots, hats, props, vehicles, arms above head, laying down, looking over their shoulder, tilted angle, detailed background or anything else that would keep it looking like a regular student ID photo.
- 300dpi minimum if it’s an electronic image

If you do not turn in a picture that meets the above requirements, then we will have a photographer come in to shoot one for you for a \$20 fee or we will use your school ID photo for you picture instead.
